

## "Sunflower Symphony" sculpture:

---

1. **Planning Phase (Weeks 1-2):**
  - Finalize the project proposal and budget.
  - Secure approval and permissions from the community garden and local authorities.
  - Research and source materials for the sculpture and community event.
2. **Design Phase (Weeks 3-4):**
  - Create detailed sketches and models of the sunflower sculpture.
  - Develop a layout and plan for the community event activities.
3. **Preparation Phase (Weeks 5-6):**
  - Order and gather all necessary materials for the sculpture and event.
  - Coordinate with volunteers and community partners for the event.
  - Begin promotional efforts for the installation and community event.
4. **Construction Phase (Weeks 7-9):**
  - Construct the metal framework of the sunflower sculpture.
  - Apply paint and protective coatings to the sculpture.
  - Test and finalize the installation method (e.g., anchoring in dirt or placing in a concrete pot).
5. **Installation Phase (Week 10):**
  - Transport the sculpture to the community garden.
  - Install the sculpture securely in its designated location.
  - Set up the space for the community event.
6. **Community Event and Completion (Week 11):**
  - Host the community event, including sunflower planting and mini sculpture making.
  - Document the event and installation for promotional and archival purposes.
  - Conduct a final inspection and cleanup of the site.
7. **Post-Installation (Week 12):**
  - Monitor the sculpture and site for any immediate issues.
  - Finalize and submit documentation and reports.
  - Reflect on the project and gather feedback for future initiatives.
