L. REGIONAL COMMISSION/COMMITTEE/BOARD REPORTS

L.1 March Joint Powers Commission (JPC)

None.

L.2 Riverside County Habitat Conservation Agency Board of Directors (RCHCA)

None.

L.3 Riverside County Transportation Commission (RCTC)

None.

L.4 Riverside Transit Agency Board of Directors (RTA)

Councilmember Barnard reported the following:

The Board Authorized to Award agreement No. C25136F to Nicosia Consulting International, LLC for the replacement of four compressed natural gas (CNG) dispensers in the amount not to exceed \$602,589

The Board approved revisions to the Agency's Procurement Policies and Procedures Manual. Additionally, the Board adopted revisions to the Agency's Policy for Transferring Title of Surplus Vehicles.

L.5 Western Riverside Council of Governments Executive Committee (WRCOG)

None.

L.6 Western Riverside County Regional Conservation Authority Board of Directors (RCA)

Mayor Cabrera reported the following:

At the RCA Board of Directors meeting on February 2, 2026, reports for the following were received:

- Western Riverside County MSHCP Fee Collection for November 2025;

- Joint Project Review Status;
- Acquisition Status;
- Monthly Investment for November 2025
- Single Signature Authority Report; and
- Quarterly Public Engagement Metrics Report, October - December 2025.

Staff provided an update on Governor Gavin Newsom's released budget proposal for Fiscal Year (FY) 2026-27, totaling \$348.9 billion. The budget proposal projects a shortfall of \$2.9 billion this fiscal year, increasing to more than \$22 billion in FY 2027-28. The proposal does not appear to cut funding levels for programs of interest or California Department of Fish and Wildlife staffing. Additionally, the budget proposal would invest \$199 million in Proposition 4 (2024) climate and natural resources bond funds in biodiversity and nature-based solutions to climate change - \$123 million of which would be directed to conservation, restoration, and habitat connectivity programs administered by the Wildlife Conservation Board (WCB). If enacted, this \$123 million would fund WCB programs that RCA may compete for land acquisition funding to advance Multiple Species Habitat Conservation Plan (MSHCP) reserve goals.

Federal Update: The continuing Resolution funding the Government at the 2025 levels has lapsed last Friday night (January 30th) and the government has partially shutdown. The House is expected to vote on a deal that would fund the remaining appropriations by tomorrow. If signed by President Donald Trump, the FY 2026 appropriations legislation would continue to fund the HCP Land Acquisition program of the Cooperative Endangered Species Conservation Fund (CESCF, or Section 6) at \$26 million. Additionally, the appropriations legislation would include the report language crafted by House Appropriations Committee - Interior, Environment, and Related Agencies Subcommittee in response to requests from Representative Ken Calvert (Corona) and the RCA. The report language would direct the U.S. Fish & Wildlife Service to fulfill its commitments to Habitat Conservation Plans such as the MSHCP, as follows: "The Committee recognizes that large-scale, programmatic Habitat Conservation Plans (HCPs) provide valuable landscape-scale conservation of listed species while streamlining the development of infrastructure, housing, and transportation improvements in a manner that promotes economic development and prosperity. The Committee directs

the Service to fulfil its commitments to certain HCPs to fund HCP acquisition of lands that are essential to achieve the full benefits of those plans and unlock the full potential of public-private partnerships.” If enacted, this support language will be a significant victory for the RCA. While funding levels for HCP Land Acquisition remain constant and the appropriations legislation unfortunately does not open the door for funding increases from discretionary sources – as advocated for by the RCA, RCA staff will continue to build on this momentum as it looks to develop funding requests for the FY 2027 appropriations process.

The Board received a presentation on the City of Murrieta Fee Credit Request for the Murrieta Hills Specific Plan Amendment Project. Murrieta is requesting a Local Development Mitigation Fee credit in exchange for transferring to the RCA approximately 615 acres of land that are described for conservation by the MSHCP and which will count as Additional Reserve Lands. The Murrieta Hills Specific Plan is a 965-acre development project proposed by Pulte Homes. The Specific Plan area is located south of Keller Road, west of Interstate 215. The Amendment proposes a maximum of 1,585 single family residences, a 10-acre commercial/office center, and approximately 59.1 acres of roadway development.

The Board also received a presentation on the Western Riverside County Multiple Species Habitat Conservation Plan Reserve Design. The MSHCP Reserve System consists of various components identified as proposed cores, extensions of existing cores, linkages, constrained linkages, and non-contiguous habitat blocks. The components of the MSHCP Reserve System were crafted using fundamental tenets of reserve design. A primary factor in considering reserve design is the species that are intended to be conserved. Many species will have similar habitat requirements while other species may have very specific habitat requirements. The habitat requirements of the species considered for conservation dictate the location, size, configuration, and connectivity needs of a proposed reserve. Conservation Criteria (Cell Criteria) translate the fundamentals of reserve design to direct conservation efforts.
